Endnotes

¹ Duflo 2012; Kabeer and Natali 2013.

² UN Women 2014; Ortiz and Cummings 2013.

³ A number of countries that were badly affected by the 2008 global crisis changed their approach to monetary policy as part of their response to the downturn. The recession reduced inflationary pressures and interest rates remained low as monetary policy focused on supplying adequate liquidity to the financial markets.
